MISCELLANEOUS ITEMS

- Officer Corey Pavinski has submitted his letter of resignation, with his last day of employment being October 31, 2026. (See attached) Corey has accepted a position with UGI that offers significantly higher compensation. While we are disappointed to lose him, we understand his decision to pursue an opportunity that provides greater financial benefits for him and his family. We thank Corey for his service to the Forty Fort Borough Police Department and wish him success in his new position. There will be no exit interview.

- Officer Dane Sorensen successfully completed the 80-hour On-Scene and Homicide by Vehicle Collision Investigation Course. This advanced training is part of the Pennsylvania Crash Reconstruction Series and represents another step toward achieving certification as a Pennsylvania Crash Reconstructionist. The specialized knowledge and investigative skills gained through this training will further enhance the department's ability to investigate serious and fatal motor vehicle crashes.

- Officer Corey Pavinski successfully completed the 40-hour Controlled Force Instructor-Level Course. This training was intended to prepare Officer Pavinski to provide in-house instruction in hands-on use-of-force and defensive tactics, supporting Pennsylvania's annual training requirements for municipal police officers. However, due to Officer Pavinski's upcoming resignation, the department will be unable to utilize him as an instructor long term. In accordance with the reimbursement provisions of the collective bargaining agreement between the Borough and its police officers, Officer Pavinski will be required to reimburse the Borough for the cost of the training. These recovered funds can then be used to provide instructor-level certification to another officer who will remain with the department, ensuring that the Borough retains the long-term benefit of this investment and can meet its ongoing training obligations.

Respectfully submitted: Wednesday, October 14, 2026
Chief Daniel E. Hunsinger
